Verhalen Nursery Co.

Scottsville, Texas

Standard and Unusual Nursery Stock

WHOLESALE ONLY

WORTH READING

Zone No. 1 delivered prices are for truckloads delivered by us within the distances of Wichita Falls, Mineral Wells, Temple, Hearne, Galveston, Port Arthur, Alexandria, Monroe, La., and Eldorado, Ark.

Zone No. 2 delivered prices are for truckloads delivered by us outside of Zone No. 1 as far as Abilene, Brownwood, San Antonio, Corpus Christi, Lake Charles, Vicksburg, Little Rock and Fort Smith, Ark.

Carloads may be shipped at a saving over truck delivery on a special low balled and burlapped rate of 25% of the first class rate on an 18,000 pound minimum; and on 20% of the first class rate on a 30,000 pound minimum. Your railroad agent can quote you exact carload rate or we will quote it promptly. Cars may be stopped enroute three times for partial unloading at $6.30 for each stop.

Approximate weight of balled plants are:

Under 18 inches	12 to 22 lbs.
18 to 24 inches	30 to 40 lbs.
2 to 3 and 3 to 4 feet	40 to 60 lbs.
5 to 6 feet	100 to 200 lbs.
Larger plants	up to 1200 lbs.

Scottsville is in Harrison County, Northeast Texas, where nursery stock, along with natural plant life, becomes dormant in October, goes through normal winter temperatures of 20 degrees above zero and does not break into spring growth until late February or early March, thus producing hard, fully dormant nursery stock which ships safely anywhere.

We Sell at Wholesale Only—Not One Plant at Retail

Verhalen Nursery Co.

Scottsville, Texas

Telephone Marshall, Texas 29F2

Telegrams: Western Union, Scottsville, Texas

Our evergreens are grown on moderately rich, firm, but porous soil which permits the ball of earth to readily unite with the soil into which it may be planted. All of the balls are flat bottomed and uniform in dimensions according to the size of the plant. These are valuable factors.

CONIFERS

Balled and Burlapped (B&B) unless otherwise noted.

BIOTA orientalis aurea conspicua—Goldspire Arbor Vita. Conspicuous golden foliage.

	Delivered Zone 2	Delivered Zone 1	F.O.B. Nursery (See Inside Front Cover)

15-18 in.			
18-24 in.			
24-30 in.			
30-36 in.			
3 - 4 ft.			

JUNIPERUS japonica (procumbens). Japanese Juniper. Upright-trained specimens. Dwarf novelty, unusually attractive. (See photo).

2 - 3 ft.			
2 - 3 ft. Extras			
3 - 4 ft. Extras			

TRAINED JAPANESE JUNIPER

Photographed September, 1937

JUNIPERUS japonica erecta—Upright Japanese Juniper. Entirely different from trained procumbens. Deep vase like; foliage soft, bright green; a new style and color for landscaping.

	Delivered Zone 2	Delivered Zone 1	F.O.B. Nursery (See Inside Front Cover)
18-24 in.			
2 - 3 ft.			
3 - 4 ft.			

JUNIPERUS sabina—Savin Juniper. Spreading like Pfitzer Juniper.

15-18 in.			
18-24 in.			
2 - 3 ft.			

JUNIPERUS sabina tamariscifolia—Tamarix-leaved Savin Juniper. Dwarf; rock gardens.

15-18 in.			
18-24 in.			

JUNIPERUS sabina von ehron—Von Ehron Juniper. A broader, faster growing form of Savin Juniper.

18-24 in.			
2 - 3 ft.			
3 - 4 ft.			

JUNIPERUS sabina von ehron—Uprightly-trained Von Ehron Juniper. An unusual new landscape form; trained to 6 feet tall. Looks like and usable as a dwarfed Cannart Juniper.

2 - 3 ft.			
3 - 4 ft.			
4 - 5 ft.			
5 - 6 ft.			

JUNIPERUS scopulorum—Colorado Silver Cedar. Sheared, mostly silvery trees; heat and cold resistant. Native to Rocky Mountains.

3 - 4 ft.			
4 - 5 ft.			
5 - 6 ft.			
6 - 7 ft.			
7 - 8 ft.			

ANDORRA JUNIPER

Photographed September, 1937

JUNIPERUS scopulorum—Blue Moon Juniper. Silvery gray; new.

	Delivered Zone 2	Delivered Zone 1	F.O.B. Nursery (See Inside Front Cover)
2 - 3 ft.			
3 - 4 ft.			
4 - 5 ft.			
5 - 6 ft.			

JUNIPERUS scopulorum fraseri—Fraser Juniper. Silvery.

3 - 4 ft.			
4 - 5 ft.			
5 - 6 ft.			

JUNIPERUS scopulorum—Moonlight Juniper. Silvery, open bodied; foliage mostly in flat panels; suitable for prominent positions; very attractive.

3 - 4 ft.			
4 - 5 ft.			
5 - 6 ft.			
6 - 7 ft.			
6 - 7 ft. Extras			

JUNIPERUS scopulorum—North Star Juniper. Compact, green, upright; does not turn brown in winter like Red Cedar does occasionally.

3 - 4 ft.			
4 - 5 ft.			

JUNIPERUS scopulorum—Silver Glow Juniper. Glistening silvery blue, compact. Most popular of the scopulorums.

3 - 4 ft.			
4 - 5 ft.			
5 - 6 ft.			

JUNIPERUS scopulorum—Victory Juniper. A weeping, open Colorado Silver Cedar.

5 - 6 ft.			
6 - 7 ft.			
7 - 8 ft.			

JUNIPERUS scopulorum pendula—Weeping Juniper. A close-growing, more compact silvery type than above.

2 - 3 ft.			
3 - 4 ft.			
4 - 5 ft.			
5 - 6 ft.			

JUNIPERUS squamata meyeri—Meyer or Fishtail Juniper. A silvery blue thick, heavy foliaged, odd, unevenly growing juniper, especially good for rock gardens or other important positions. Dwarf.

	Delivered Zone 2	Delivered Zone 1	F.O.B. Nursery (See Inside Front Cover)
12-15 in.			
15-18 in.			
18-24 in.			
24-30 in.			
30-36 in.			

JUNIPERUS virginiana—Red Cedar. Sheared; an exceedingly comely form admired by all.

3 - 4 ft.			
4 - 5 ft.			
5 - 6 ft.

PATENTED ROSES

	Wholesale 1 to 20	Wholesale Over 20	Retail Selling Each	Retail Selling Dozen
BLACK KNIGHT— Flower medium size, 25 to 35 petals, color garnet-maroon, appearing almost black when viewed from a distance; very velvety, a good vigorous upright bush	-----	-----	-----	-----
FEU PERNET-DUCHER— Creamy buds, heavily marked with carmine, slowly opening to spiral flowers of rich yellow, growing lighter toward the edges, 80 to 100 petals	-----	-----	-----	-----
GLORIANA— A clear buttercup yellow, slightly streaked carmine; does not burn in the hottest weather; 35 petals. Exceptionally strong, clean upright growing bush	-----	-----	-----	-----
IRELAND HAMPTON— Best described as a glorified Mme. Edouard Herriott; orange pink, but is a stronger grower and more free flowering	-----	-----	-----	-----
LUIS BRINAS— Fine pointed buds of orange-copper open slowly, the petals curling back, making a starry flower with a high center, from 40 to 45 petals. When entirely open the color is soft old-rose, flushed with gold	-----	-----	-----	-----
MME. COCHET-COCHET— Long pointed buds of coppery pink, flushed orange, open to 4½ inch flowers of splendid form with 20 to 40 petals; the plants are tall, with gold foliage	-----	-----	-----	-----
NELLIE E. HILLOCK— Brilliant deep pink, large to very large flower, two-tone lighter pink inside than outside, strong stems, 40 to 60 petals	-----	-----	-----	-----
STERLING— An outstanding brilliant new pink rose, which is outradiancing the Radiance in vigor and flowering quality	-----	-----	-----	-----
TEXAS CENTENNIAL— Bud is long-pointed, opening into a large, moderately fragrant flower carried on a long stem. Color is nopal-red, with a dainty shade of gold	-----	-----	-----	-----
